

COMPANY OVERVIEW

TIES Communication, Inc. (tiestech) is an SBA-certified Women-Owned Small Business (WOSB) specializing in IT infrastructure consulting, design, and deployment. We focus on modernizing legacy systems for government and commercial clients, delivering secure, scalable, and high-performance solutions. The team brings over a decade of experience supporting Department of Defense clients, including the U.S. Army Reserve Command (USARC). Our Government Services division provides a dedicated, single point of contact for all public sector engagements, ensuring responsive and knowledgeable support.

CORE COMPETENCIES

- IT Infrastructure Modernization: Future-ready network, data center and cloud solutions.
- Network Systems Design: Secure, resilient, and scalable LAN/WAN architecture.
- Network as a Service (NaaS): Simplified, subscription-based network management.
- Performance Optimization: Network Analysis and Bottleneck Resolution.
- Hardware Procurement: Trusted reseller of leading computer and peripheral equipment.
- Strategic IT Consulting: Aligning technology initiatives with organizational goals.

DIFFERENTIATORS

- SBA Certified WOSB: A qualified, reliable small business partner to help agencies meet contracting goals.
- Engineering-Led: Our solutions are technically sound, secure, and built for long-term performance from the ground up.
- Vendor-Agnostic: We leverage strategic partnerships to deliver the best-fit technology for the client's specific needs.
- Dedicated Government Partner: One point of contact for direct accountability and mission-focused results.
- Local & Responsive: As a Missouri-based firm, we provide the agility and direct access to leadership that larger contractors cannot match.
